#### Overview of Cybersecurity Breaches

This session will review the common types of cybersecurity breaches that occur today from intellectual property theft, identity theft, ransomware, malware, hacking, and phishing as a few examples. Understand how breaches occur and what happens during the breach.

– Mark Lanterman

10:00 – 10:05 a.m. BREAK

10:05 – 11:05 a.m.

#### What Should You Do after a Cybersecurity Breach?

Once a cybersecurity breach has occurred you have certain post-breach duties. This session will discuss the post-breach duties you have, state breach notification laws, and the possible post-breach remedial actions available.

– Justice Daniel J. Crothers & Mark Lanterman

11:05 – 11:15 a.m. BREAK

11:15 a.m. – 12:15 p.m.

#### Ethical Duties in the Age of Cybersecurity

1.0 ethics credit applied for

While breaches may not be avoidable or unstoppable, attorneys must avoid inadvertent or unauthorized disclosure of client information. Understand the ethical duties you have to safeguard against breaches or data loss.

– Justice Daniel J. Crothers & Mark Lanterman

AFTERNOON

# New Technology and The Law

## Keep Up to Date with Emerging Technologies

### SCHEDULE

12:30 – 1:00 p.m. JOIN ONLINE

1:00 – 1:45 p.m.

#### Connected and Automated Vehicles: Where Are They (and the Law) Headed?

In this discussion, a litigator, cybersecurity expert, and member of the Minnesota Governor’s Advisory Council on Connected and Automated Vehicles will give his personal observations and views on:

1. The current state of connected and automated vehicle technology
2. How the technology is being regulated by local, state, and federal laws
3. Nascent litigation trends
4. Potential pitfalls related to liability, cybersecurity, government transparency, and privacy.

The road to full Level 5 autonomy will be bumpy, and this presentation will map the potential potholes.

– Damien Riehl

1:45 – 1:50 p.m. BREAK

1:50 – 2:35 p.m.

#### Drones and the Law: A Look at Legal and Illegal Operations of Unmanned Aircraft Systems (UAS)

This presentation will discuss the difference between hobby drones and commercial drones, a glimpse of the various applications of drone technology, and will examine the current state of the Federal Aviation Regulations regarding the use of drones, as well as the Federal Aviation Administration’s proposal for future regulations.

– Garrett B. Caffee

2:35 – 2:40 p.m. BREAK

2:40 – 3:40 p.m.

#### Blockchains and the Law – Understanding Smart Contracts, Cryptocurrencies, and Non-Fungible Tokens

As smart contracts start to gain traction it is important to understand what they are and the blockchain technology by which they operate. We will discuss how smart contracts can be used today, their limitations, and future implications. In addition, we will explore the basics of Bitcoin and other cryptocurrencies, and non-fungible tokens and how they interplay with smart contracts. It is more important than ever to understand these emerging technologies, the current and potential legal implications, and the role of lawyers with assisting in the implementation and practice of smart contracts.

– Daniel A. Tysver

3:40 – 3:45 p.m. BREAK

3:45 – 4:15 p.m.

#### Artificial Intelligence, the Internet of Things and the Law

This session will provide an overview of selected highlights from the state of the art relative to Artificial Intelligence (AI) and examine its relationship to the Internet of Things (IoT) ecosystem. This session will also delve into the legal implications associated with the use of AI in IoT.

– Eran Kahana
